DETAILED ACTION

Response to Arguments

 Applicant's arguments filed 4/1/09, with respect to claims 35-64, have been fully considered but they are not persuasive.

- Claims 35-64 remain rejected under 35 U.S.C. 102(a) as being anticipated by Kim et al.
 (International Organisation for Standardisation Organisation Internationale de Normalisation ISO/IEC JTC1/SC29/WG11 Coding of Moving Pictures and Audio; hereinafter Kim; already of record).
- 3. The Applicants present one substantive argument contending the Examiner's rejections of claims 35-64, as was set forth in the Office Action of 12/03/08. However, after careful review of the argument presented and further scrutiny of the applied reference, the Examiner respectfully disagrees and maintains the grounds of rejections.
- 4. Applicant argues "...that the rejection of claims 35-64 may be overcome by providing a declaration and evidence showing the invention disclosed in Kim was by the inventors and is thus not an invention 'by another'" (Remarks of 4/1/09: pg. 8, lines 1-4) and has attached a declaration under 37 CFR 1.132. However, the Examiner respectfully disagrees for the reasons that follow. The Examiner notes The declaration under 37 CFR 1.132 filed 4/1/09 is insufficient to overcome the rejection of claims 35-64 under 35 U.S.C. 102(a) as being anticipated by Kim et al. as set forth in the last Office action of 12/31/08, because as established by the MPEP:

Application/Control Number: 10/522,209

Art Unit: 2621

"An affidavit or declaration by less than all named inventors of an application is accepted where it is shown that less than all named inventors of an application invented the subject matter of the claim or claims under rejection. For example, one of two joint inventors is accepted where it is shown that one of the joint inventors is the sole inventor of the claim or claims under rejection..." see MPEP 715.04, I, (B), and further "...where all of the named inventors of a pending application are not inventors of every claim of the application, any affidavit under 37 CFR 1.131 could be signed by only the inventor(s) of the subject matter of the rejected claim," see MPEP 715.04, I..

However, the Examiner notes that the Applicants have not sufficiently established that less than all of the named inventors of the application have invented all of the subject matter of the claims. Any further response to meet this requirement must firmly delineate which inventors are responsible for the claimed subject matter versus the non-claimed subject matter.

Conclusion

 THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing

date of this final action.
